H·Gerstner & Sons TOOL CHESTS

DESCRIPTION

PRECISION-BUILT Gerstner Chests are made to give you the finest in tool protection, perfect ease in operation, and a life-time of satisfaction.

BUILT OF WOOD, Gerstner Chests resist the temperature changes that cause harmful condensation on costly tools.

WOOD cushions delicately adjusted tools, and soft felt drawer bottoms give further protection.

LOCKS on Gerstner Chests are rugged, long lasting. Top compartment chests have a self-locking device which automatically locks the front lid.

EASY OPERATION of all moving parts is assured by the careful choice of thoroughly seasoned, kiln-dried lumber.

LOCK-CORNERED and tongue-and-grooved joints fit precisely to give you a sturdy, durable chest.

DRAWERS are carefully hand-fitted to slide smoothly without binding. They are suspended on hardwood slides that last the life of the chest.

CRAFTSMANSHIP is built into every Gerstner Chest. It is the quality that makes you proud to own and use a chest with the Gerstner trademark.

JOINTS are snug fitting and permanent. Drawer fronts are beaded and all edges are neatly rounded.

ONLY CABINET WOODS, the finest, such as oak, mahogany, and walnut, are used in Gerstner Chests.

POLISHED WOOD CHESTS are varnished and hand rubbed. Art leather chests are neatly and attractively tooled.

WATCHFULNESS in each stage of manufacture makes every Gerstner Chest a pleasure to own and use.
